

ADSL2+

FAST, FLEXIBLE AND SCALABLE

About ADSL2+

ADSL (Asymmetric Digital Subscriber Line) is an asymmetric service, that is the download and upload speeds are not symmetrical (download is faster than upload).

ADSL2+ doubles the bandwidth used for downstream data transmission, effectively doubling the maximum downstream data rates.

Broadband Solutions' ADSL 2+ is one of the most cost effective high speed business grade internet connections currently available in Australia. The theoretical maximum speed is 20Mbps download and 1Mbps upload. Speeds are determined by distance to the exchange and quality of the copper line. Your modem will sync at the highest speed possible on your line. Typical speeds range from between 10Mbps and 20Mbps.

How do I know if ADSL2+ is the right solution for me?

ADSL2+ provides much faster download speeds than upload speeds, making it well suited to your business if you download more than you upload. We have business plans with unlimited data allowances per month so you don't have to worry about excess download costs ever again.

We can provide 20Mbps/1Mbps plans, with either 100Gb or unlimited data allowances, and no setup fees. Prices for plans are available on application. It's important to note that our 20Mbps plan speed is provided on a "best effort" basis, and the actual speed can vary depending on factors such as line quality and distance from exchange. Typical speeds range from 5Mbps to 18Mbps.

Requirements

ADSL2+ is available in most, but not all locations. You will also require a fixed telephone line to be installed. If you do not currently have a fixed line, please talk to us about our fixed line services.

Solution at a glance

- Highly reliable technologies with a guaranteed 99.95% uptime
- Guaranteed speeds*
- Flexible and Scalable – we consult with you to ensure your needs are addressed now and well into the future. We work to your plan and remain available to modify your service over time
- Peace of mind with our industry grade Service Level Agreement (SLA)
- Static IP address
- Dedicated Account Manager
- Professional 24 x 7 Australian based help desk

* speeds delivered will be dependant upon distance from the exchange and quality of the copper lines.

Broadband Solutions

ABOUT US

Broadband Solutions is one of Australia's most successful business internet providers, offering innovative, tailored, reliable IP networks for Australian businesses. Founded in 2005, we experienced 85% growth over the last 3 years, and have been profitable for 9 years running. Australian-based and privately owned, Broadband Solutions is operated by an experienced team of industry veterans, with a dedicated business network and truly national coverage.

Our proven, reliable network carries the Internet and telephony traffic for some of Australia's largest companies and schools, as well as more than 85% of Australia's hotels.

Broadband Solutions' SmartPABX™ system has been developed in-house using open source Asterisk technology. The system is capable of operating in the cloud or on-site and we have already rolled out over 1,000 of our PABX systems to the SME and Corporate sectors.

Broadband Solutions' commitment to service excellence and customer support, built on significant investment in infrastructure, means we're the smart way to say hello – with an impressive network uptime of more than 99.95% for the last 8 years running. We take the stress out of managing telephony and internet networks.

For more information about how Broadband Solutions can tailor a solution to suit your business, call 1300 683 000 or visit broadbandsolutions.com.au

Their customer service is very, very good. It's probably the best I've experienced with any network IT vendor.

Kesh Nair, IT Project Architect,
Close the Loop

Broadband Solutions were astute and on time. They were also flexible, which is the most important thing with a new build.

Craig Simpson, Head of Hotel Technology,
Amalgamated Holding Limited

Broadband Solutions really took the stress out of the whole process and allowed us to become more productive, more quickly. Their commitment to customer service is outstanding and we would recommend them with absolutely no reservations to anyone looking for the best value in broadband and telephony.

Aaron Cox, ICT Coordinator
Kingswood Primary School
