

Onsite PABX

FLEXIBLE OPTIONS TO SUIT YOUR BUSINESS

About Onsite PABX

Broadband Solutions has created its own sophisticated PABX solution, supplied on a high availability server. A Graphical User Interface (GUI) allows easy modification of the PABX set-up (Move Adds & Changes) by any authorised person within your organisation. By eliminating the need for a field technician visit each time you want to alter your settings, you save time and money.

We offer businesses a range of options for the acquisition and management of a PABX system with excellent rates on voice calls, and our PABX solutions allow your business to either purchase the equipment outright, or to rent on a monthly basis. All solutions include maintenance.

How do I know if Onsite PABX is the right solution for me?

The Onsite PABX from Broadband Solutions can take your organisation to the next level – improving customer satisfaction, team performance and the bottom line. In addition, a Broadband Solutions' Onsite PABX can utilise VoIP and ISDN technologies, either separately or simultaneously to best meet your commercial and operational requirements.

The features available with our system are state-of-the-art. A voice guided menu and custom greetings will allow you to have tailored information available to your clients, 24 hours a day. All the standard PABX features exist such as IVRs, voicemail, call transfer, call hold, call queuing, music on hold and much more.

Requirements

A local area network based on CAT5 or CAT6 cabling will be required to allow the connection of the IP enabled handsets.

Solution at a glance

- Reduce complexity with one bill for PABX equipment and voice calls
- Choose the finance option that suits your business – purchase or rental
- Get a 'best fit' solution that is tailored to suit your specific business needs
- Achieve significant cost savings with our excellent rates for equipment, maintenance and calls
- Dedicated Account Manager & Network Engineer
- 24 x 7 Business Grade Technical Support

Broadband Solutions

ABOUT US

Broadband Solutions is one of Australia's most successful business internet providers, offering innovative, tailored, reliable IP networks for Australian businesses. Founded in 2005, we experienced 85% growth over the last 3 years, and have been profitable for 9 years running. Australian-based and privately owned, Broadband Solutions is operated by an experienced team of industry veterans, with a dedicated business network and truly national coverage.

Our proven, reliable network carries the Internet and telephony traffic for some of Australia's largest companies and schools, as well as more than 85% of Australia's hotels.

Broadband Solutions' SmartPABX™ system has been developed in-house using open source Asterisk technology. The system is capable of operating in the cloud or on-site and we have already rolled out over 1,000 of our PABX systems to the SME and Corporate sectors.

Broadband Solutions' commitment to service excellence and customer support, built on significant investment in infrastructure, means we're the smart way to say hello – with an impressive network uptime of more than 99.95% for the last 8 years running. We take the stress out of managing telephony and internet networks.

For more information about how Broadband Solutions can tailor a solution to suit your business, call 1300 683 000 or visit broadbandsolutions.com.au

Their customer service is very, very good. It's probably the best I've experienced with any network IT vendor.

Kesh Nair, IT Project Architect,
Close the Loop

Broadband Solutions were astute and on time. They were also flexible, which is the most important thing with a new build.

Craig Simpson, Head of Hotel Technology,
Amalgamated Holding Limited

Broadband Solutions really took the stress out of the whole process and allowed us to become more productive, more quickly. Their commitment to customer service is outstanding and we would recommend them with absolutely no reservations to anyone looking for the best value in broadband and telephony.

Aaron Cox, ICT Coordinator
Kingswood Primary School
